Australian/New Zealand Standard™

Portable fire extinguishers**Part 7: Specific requirements for vaporizing liquid type extinguishers****1 SCOPE**

This Standard specifies requirements for portable rechargeable fire extinguishers of the vaporizing liquid type.

2 APPLICATION

Portable, rechargeable, vaporizing liquid fire extinguishers shall comply with AS/NZS 1841.1 and the requirements of this Standard.

Where requirements differ, this Standard shall take precedence.

3 REFERENCED DOCUMENTS

The following document is referred to in this Standard:

AS/NZS

1841 Portable fire extinguishers

1841.1 Part 1: General requirements

4 EXTINGUISHANT

A vaporizing liquid, or blend of vaporizing liquids.

NOTE: Attention is drawn to regulations governing the use of ozone-depleting substances and synthetic green house gases.

5 MARKING

In addition to the requirements of AS/NZS 1841.1, every vaporizing liquid type extinguisher shall be marked with the following:

- (a) The approved name or designation of the vaporizing liquid.
- (b) The size, in terms of the mass of vaporizing liquid, in kilograms.

This Australian/New Zealand Standard was prepared by Joint Technical Committee FP-003, Fire Extinguishers. It was approved on behalf of the Council of Standards Australia on 20 June 2007 and on behalf of the Council of Standards New Zealand on 6 July 2007 and published on 31 August 2007.

The following are represented on Committee FP-003:

Association of Accredited Certification Bodies
Australasian Fire Authorities Council
Australian Building Codes Board
Australian Competition and Consumer Commission
Certification Interests (Australia)
Fire Protection Association Australia
Fire Protection Association New Zealand
Institution of Fire Engineers
Insurance Council of New Zealand
WorkCover New South Wales

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for the improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

Originated in Australia as part of AS A163—1968.
Revised and designated AS 1848—1979.
Third edition 1985.
Revised and designated, in part, AS 1841.7—1992.
Originated in New Zealand as NZS 4551:1974.
AS 1841.7—1992 and NZS 4551:1974 jointly revised,
amalgamated and designated AS/NZS 1841.7:1997.
Second edition 2007.

This Standard was issued in draft form for comment as DR 06683.
